

# TABLE OF CONTENTS

<b>MODULE 1</b>	Course Introduction . . . . .	1
	Importance . . . . .	2
	Learner Objectives (1) . . . . .	3
	Learner Objectives (2) . . . . .	4
	You Are Here . . . . .	5
	Typographical Conventions . . . . .	6
	References . . . . .	7
	VMware Online Resources . . . . .	8
	VCP-Core Certification Alignment . . . . .	9
	VMware Education Overview . . . . .	10
<b>MODULE 2</b>	Software-Defined Data Center . . . . .	11
	You Are Here . . . . .	12
	Importance . . . . .	13
	Module Lessons . . . . .	14
	Lesson 1: Introduction to the Software-Defined Data Center . . . . .	15
	Learner Objectives . . . . .	16
	Topology of a Physical Data Center . . . . .	17
	Introducing the Virtual Infrastructure . . . . .	18
	About Virtual Machines . . . . .	19
	Benefits of Using Virtual Machines . . . . .	20
	Physical Architecture and Virtual Architecture . . . . .	22
	Physical Resource Sharing . . . . .	23
	CPU Virtualization . . . . .	24
	Physical and Virtualized Host Memory Usage . . . . .	25
	Physical and Virtual Networking . . . . .	26
	Physical File Systems and VMFS . . . . .	28
	Encapsulation . . . . .	29
	About the Software-Defined Data Center . . . . .	30
	How vSphere Fits into Cloud Computing . . . . .	31
	About Private Clouds . . . . .	33
	About Public Clouds . . . . .	34
	About Hybrid Clouds . . . . .	35
	Review of Learner Objectives . . . . .	36
	Lesson 2: vSphere Client . . . . .	37
	Learner Objectives . . . . .	38
	User Interfaces . . . . .	39
	Downloading vSphere Client . . . . .	40
	Using vSphere Client . . . . .	41
	vSphere Client: Configuration Tab . . . . .	42
	Viewing Processor and Memory Configuration . . . . .	43
	Viewing and Exporting ESXi Host System Logs . . . . .	44
	Viewing Licensed Features . . . . .	45

Lab 1: Installing vSphere Client . . . . .	46
Review of Learner Objectives . . . . .	47
Lesson 3: Overview of ESXi . . . . .	48
Learner Objectives. . . . .	49
About ESXi Hosts . . . . .	50
Physical and Virtual Architecture . . . . .	51
Configuring an ESXi Host. . . . .	53
Configuring an ESXi Host: Root Access . . . . .	54
Configuring an ESXi Host: Management Network. . . . .	55
Configuring an ESXi Host: Other Settings . . . . .	56
Network Settings: DNS and Routing . . . . .	57
Remote Access Settings: Security Profile . . . . .	58
Managing User Accounts Best Practices. . . . .	59
Lab 2: Configuring ESXi Hosts . . . . .	60
Review of Learner Objectives . . . . .	61
Key Points . . . . .	62

## MODULE 3

Creating Virtual Machines . . . . .	63
You Are Here . . . . .	64
Importance. . . . .	65
Module Lessons. . . . .	66
Lesson 1: Virtual Machine Concepts . . . . .	67
Learner Objectives. . . . .	68
About Virtual Machine Files . . . . .	69
About Virtual Machine Virtual Hardware. . . . .	71
Virtual Hardware Versions . . . . .	73
About Virtual Hardware Version 11 . . . . .	74
About CPU and Memory. . . . .	75
About Virtual Disks. . . . .	77
About Thick-Provisioned Virtual Disks . . . . .	78
About Thin-Provisioned Virtual Disks . . . . .	79
About Network Virtual Machine Configuration . . . . .	81
About Network Adapters. . . . .	82
About Miscellaneous Devices . . . . .	84
About the Virtual Machine Console . . . . .	85
Review of Learner Objectives. . . . .	86
Lesson 2: Creating a Virtual Machine. . . . .	87
Learner Objectives. . . . .	88
About Provisioning Virtual Machines. . . . .	89
Creating Virtual Machines with the New Virtual Machine Wizard . . . . .	90
New Virtual Machine Wizard . . . . .	92
Installing the Guest Operating System . . . . .	93
Deploying OVF Templates . . . . .	94

Deploying a Virtual Machine in vCloud Air . . . . .	95
About VMware Tools . . . . .	96
Removing a Virtual Machine . . . . .	98
Troubleshooting OS Installation Failures on ESX/ESXi Hosts . . . . .	99
Troubleshooting VMware Tools Installation Problems . . . . .	100
Lab 3: Working with Virtual Machines. . . . .	101
Review of Learner Objectives. . . . .	102
Key Points . . . . .	103

## MODULE 4

vCenter Server. . . . .	105
You Are Here . . . . .	106
Importance. . . . .	107
Module Lessons. . . . .	108
Lesson 1: vCenter Server Architecture . . . . .	109
Learner Objectives. . . . .	110
About the vCenter Server Management Platform . . . . .	111
vCenter Server Architecture . . . . .	112
Additional vCenter Server Services and Interfaces. . . . .	113
Platform Services Controller . . . . .	115
vCenter Server Services and Functions. . . . .	116
ESXi and vCenter Server Communication . . . . .	117
Default vCenter Server Plug-Ins . . . . .	118
vSphere Web Client Plug-In Packages . . . . .	119
Review of Learner Objectives. . . . .	120
Lesson 2: Deploying vCenter Server Appliance . . . . .	121
Learner Objectives. . . . .	122
vCenter Server Appliance Features . . . . .	123
vCenter Server Appliance Basics . . . . .	124
Platform Services Controller Deployment Recommendations (1) . . . . .	125
Platform Services Controller Deployment Recommendations (2) . . . . .	126
Platform Services Controller Deployment Recommendations (3) . . . . .	127
vCenter Server Appliance Scalability . . . . .	128
vSphere License Service . . . . .	129
Preparing for vCenter Server Appliance Deployment (1). . . . .	131
Preparing for vCenter Server Appliance Deployment (2). . . . .	132
Deploying vCenter Server Appliance . . . . .	133
vCenter Server Appliance Installation Media . . . . .	134
Accessing vCenter Server Appliance . . . . .	135
Connecting to the ESXi Host on Which to Deploy vCenter Server Appliance. . . . .	136
Specifying the Virtual Machine Name and Password for Root User . . . . .	137
Selecting the Deployment Type . . . . .	138
Configuring vCenter Single Sign-On . . . . .	139

Selecting a vCenter Server Appliance Size . . . . .	140
Selecting a Datastore . . . . .	141
Configuring Network Settings. . . . .	142
Using the vSphere Web Client to Log In to vCenter Server . . . . .	143
Adding License Keys to vCenter Server . . . . .	144
Configuring vCenter Server Settings. . . . .	145
Managing the vCenter Server Services . . . . .	146
Monitoring Health and Status of Services and Nodes Across vCenter Server Systems . . . . .	147
ESXi Host as an NTP Client . . . . .	148
Configuring Host Time Synchronization . . . . .	149
Lab 4: Working with vCenter Server . . . . .	150
Review of Learner Objectives . . . . .	151
Lesson 3: vSphere Web Client . . . . .	152
Learner Objectives. . . . .	153
Accessing vSphere Web Client . . . . .	154
vSphere Web Client Home Page . . . . .	155
Using the vSphere Web Client Navigator . . . . .	156
vCenter Server Views: Hosts and Clusters, VMs and Templates . . . . .	157
vCenter Server Views: Storage and Networks . . . . .	158
Viewing Object Information . . . . .	159
Viewing Recent Objects . . . . .	160
Using Quick Filters . . . . .	161
Using Drag-and-Drop Functionality . . . . .	162
Lab 5: Using vSphere Web Client. . . . .	163
Review of Learner Objectives . . . . .	164
Lesson 4: Managing the vCenter Server Inventory . . . . .	165
Learner Objectives. . . . .	166
About Data Center Objects . . . . .	167
Organizing Inventory Objects into Folders . . . . .	168
Using Folders. . . . .	169
Adding a Host to the vCenter Server Inventory . . . . .	170
Creating Custom Tags for Inventory Objects . . . . .	171
vCenter Server Events . . . . .	172
vCenter Server System Logs . . . . .	173
Lab 6: Creating Folders in vCenter Server Appliance . . . . .	174
Review of Learner Objectives . . . . .	175
Key Points . . . . .	176
<b>MODULE 5</b>	
Configuring and Managing Virtual Networks. . . . .	177
You Are Here . . . . .	178
Importance. . . . .	179
Module Lessons. . . . .	180

Lesson 1: Introduction to vSphere Standard Switches . . . . .	181
Learner Objectives. . . . .	182
Types of Virtual Switch Connections . . . . .	183
Virtual Switch Connection Examples . . . . .	184
Types of Virtual Switches . . . . .	185
Standard Switch Components . . . . .	186
Viewing the Standard Switch Configuration. . . . .	187
About VLANs . . . . .	188
Network Adapter Properties . . . . .	189
Review of Learner Objectives. . . . .	190
Lesson 2: Configuring Standard Switch Policies . . . . .	191
Learner Objectives. . . . .	192
Network Switch and Port Policies. . . . .	193
Configuring Security Policy . . . . .	194
Traffic-Shaping Policy . . . . .	196
Configuring Traffic Shaping . . . . .	197
NIC Teaming and Failover Policy. . . . .	198
Load-Balancing Method: Originating Virtual Port ID . . . . .	199
Load-Balancing Method: Source MAC Hash . . . . .	200
Load-Balancing Method: Source and Destination IP Hash. . . . .	201
Detecting and Handling Network Failure . . . . .	202
Lab 7: Using Standard Switches . . . . .	204
Review of Learner Objectives. . . . .	205
Lesson 3: Introduction to vSphere Distributed Switches . . . . .	206
Learner Objectives. . . . .	207
About vSphere Distributed Switches. . . . .	208
Benefits of Distributed Switches. . . . .	209
Standard Switch and Distributed Switch Feature Comparison . . . . .	210
Distributed Switch Architecture . . . . .	211
Distributed Switch Example . . . . .	213
Viewing a Distributed Switch . . . . .	214
Creating a Distributed Switch . . . . .	215
Editing General and Advanced Distributed Switch Properties . . . . .	216
Migrating Network Adapters to a Distributed Switch. . . . .	218
Assigning a Physical NIC of a Host to a Distributed Switch . . . . .	219
Connecting Virtual Machines to a Distributed Switch . . . . .	220
Editing Distributed Port Group General Properties. . . . .	221
Editing Distributed Port Group Advanced Properties. . . . .	223
About the VMkernel Networking Level . . . . .	224
Creating a VMkernel Adapter on a Host Associated with a Distributed Switch. . . . .	226
Virtual Machine Communication Problem Analysis (1). . . . .	227
Virtual Machine Communication Problem Analysis (2). . . . .	228

Physical Network Considerations . . . . .	229
Lab 8: Using vSphere Distributed Switches . . . . .	230
Review of Learner Objectives . . . . .	231
Key Points . . . . .	232

## MODULE 6

Configuring and Managing Virtual Storage . . . . .	233
You Are Here . . . . .	234
Importance . . . . .	235
Module Lessons . . . . .	236
Lesson 1: Storage Concepts . . . . .	237
Learner Objectives . . . . .	238
Basic Storage Overview . . . . .	239
Storage Protocol Overview . . . . .	241
About Datastores . . . . .	243
About VMFS5 . . . . .	244
About NFS . . . . .	246
About Raw Device Mapping . . . . .	247
Virtual SAN Overview . . . . .	248
About Virtual Volumes . . . . .	249
Storage Device Naming Conventions . . . . .	250
Physical Storage Considerations . . . . .	251
Review of Learner Objectives . . . . .	252
Lesson 2: iSCSI Storage . . . . .	253
Learner Objectives . . . . .	254
iSCSI Components . . . . .	255
iSCSI Addressing . . . . .	256
iSCSI Initiators . . . . .	257
Setting Up iSCSI Adapters . . . . .	259
ESXi Network Configuration for IP Storage . . . . .	260
Creating Datastores and Discovering iSCSI Targets . . . . .	261
iSCSI Security: CHAP . . . . .	262
Multipathing with iSCSI Storage . . . . .	264
Lab 9: Accessing iSCSI Storage . . . . .	265
Review of Learner Objectives . . . . .	266
Lesson 3: NFS Datastores . . . . .	267
Learner Objectives . . . . .	268
NFS Components . . . . .	269
Configuring an NFS Datastore . . . . .	270
NFS v3 and NFS v4.1 . . . . .	271
NFS Version Compatibility with Other vSphere Technologies . . . . .	273
NFS Dual Stack Not Supported . . . . .	274
NFS Datastore Name and Configuration . . . . .	275
Configuring AD and NFS Servers to Use Kerberos . . . . .	276

Configuring Host Authentication and NFS Kerberos Credentials . . . . .	277
Implications of Using NFS Kerberos . . . . .	278
Configuring the Datastore to Use Kerberos . . . . .	279
Viewing IP Storage Information . . . . .	280
Unmounting an NFS Datastore . . . . .	281
Multipathing and NFS Storage . . . . .	282
Enabling Session Trunking and Multipathing . . . . .	284
Lab 10: Accessing NFS Storage . . . . .	285
Review of Learner Objectives . . . . .	286
Lesson 4: VMFS Datastores . . . . .	287
Learner Objectives . . . . .	288
Using VMFS Datastores with ESXi Hosts . . . . .	289
Creating and Viewing VMFS Datastores . . . . .	290
Browsing Datastore Contents . . . . .	291
Managing Overcommitted Datastores . . . . .	292
Increasing the Size of a VMFS Datastore . . . . .	293
Before Increasing the Size of a VMFS Datastore . . . . .	294
Deleting or Unmounting a VMFS Datastore . . . . .	295
Multipathing Algorithms . . . . .	296
Configuring Storage Load Balancing . . . . .	297
Lab 11: Managing VMFS Datastores . . . . .	298
Review of Learner Objectives . . . . .	299
Lesson 5: Virtual SAN Datastores . . . . .	300
Learner Objectives . . . . .	301
About Virtual SAN . . . . .	302
Virtual SAN Requirements . . . . .	304
Configuring a Virtual SAN Datastore . . . . .	305
Disk Groups . . . . .	306
Cluster Summary Tab . . . . .	307
Using Virtual SAN . . . . .	308
Objects in Virtual SAN Datastores . . . . .	309
Virtual Machine Storage Policies . . . . .	310
Configuring Virtual Machine Storage Policies . . . . .	311
Viewing a Virtual Machine's Virtual SAN Datastore . . . . .	312
Disk Management (1) . . . . .	313
Disk Management (2) . . . . .	314
Adding Disks to a Disk Group . . . . .	315
Removing Disks from a Disk Group . . . . .	316
Virtual SAN Cluster Member Maintenance Mode Options . . . . .	317
Removing a Host from a Virtual SAN Cluster . . . . .	318
Review of Learner Objectives . . . . .	319
Lesson 6: Virtual Volumes . . . . .	320
Learner Objectives . . . . .	321

Next-Generation Storage . . . . .	322
Using the Hypervisor to Transform Storage . . . . .	323
Why Virtual Volumes . . . . .	324
VMDKs as Native Objects . . . . .	325
Storage Array Requirements . . . . .	327
Storage Administration . . . . .	328
Protocol Endpoints . . . . .	329
Storage Containers. . . . .	330
Using Virtual Volumes . . . . .	331
Bidirectional Discovery Process . . . . .	332
Storage-Based Policy Management (1). . . . .	333
Storage-Based Policy Management (2). . . . .	334
Review of Learner Objectives. . . . .	335
Key Points . . . . .	336
